

src/managers/InvitationManager.h

```
graph BT; IMC[src/managers/InvitationManager.cpp] --> IMH[src/managers/InvitationManager.h]; IID[src/ui/InvitationsDialog.cpp] --> IMH; MWC[src/ui/MainWindow.cpp] --> IMH; SCDD[src/ui/ShareCalendarDialog.cpp] --> IMH;
```

The diagram illustrates a header file dependency. At the top, a grey box contains the header file `src/managers/InvitationManager.h`. Below it, four white boxes represent source files: `src/managers/InvitationManager.cpp`, `src/ui/InvitationsDialog.cpp`, `src/ui/MainWindow.cpp`, and `src/ui/ShareCalendarDialog.cpp`. Blue arrows point from each of these four source files up to the header file, indicating that they all include or depend on `InvitationManager.h`.
